Attorney's Docket No.: 02103-397001 / AABOSS28

**Amendments to the Drawings:**

Please substitute the accompanying sheets containing amendments to FIGS. 3a and 3d adding electroacoustical transducer 20" coupled to bass output terminal 20".

Attachments following last page of this Amendment:

Annotated Sheet Showing Change(s) (2 pages)

REMARKS

The specification has been amended to refer to references of record for background of the invention and to the electroacoustical transducer 20" added to FIGS. 3a and 3d in response to the points made in the decision dated December 4, 2007.

The courtesy of the Examiner in granting the telephone interview of February 21, 2008, and helpful comments proffered at that time are acknowledged with appreciation. It was understood that these amendments would overcome the objection concerning the background of the invention and the absence of the electroacoustical transducer from the drawing. We have also included language to lend antecedent support to the use of terminology in the claims.

In view of the foregoing amendments and since all the claims are allowable, this application is submitted to be in a condition for allowance, and notice thereof is respectfully requested. Should the Examiner believe the application is not in a condition for allowance, he is respectfully requested to telephone the undersigned attorney at 617-521-7014 to discuss what addition steps he believes are necessary to place the application in a condition for allowance.

Please apply any charges or credits to deposit account 06-1050 under order no. 02103-397001.

Respectfully submitted,  
FISH & RICHARDSON P.C.
